Civil Justice Boesch, of the Fourth District Court, had before him this morning about 150 dispossess cases, many of them being the families of the striking cloak-The court-room was crowded with men and women and children, all DEGLARES HE WON'T RESIGN. with men and women and children, all very poorly clad, whose presence was occasioned by summonses on the part of casioned by summonses on the part of their landlords to dispossess them from their rooms for falling to pay their rent. Justice Rossch, before calling the cases, made a few remarks, in which he said:

"In view of the fact that time will be requested by a large number of the tenrequested by a large number of the ten-ants. I want to say in regard to one side of the question that as a matter of course, the landlords are entitled to their rent; they must pay taxes, must take care of their property, and are bur-dened with it, and not alone a matter of law, but as a matter of justice as well, they should get their rent. On the other hand, there is a condition of affairs in the lower part of this district, where, by reason of the so-called cloak-

Patrick Divver, P. J., is back again.

He worked in the Morrisania Polices
Ceurt this morning from 8.30 until 10.15
o'clock, and disposed of nine cases.

The Morrisania Court, as a rule, opens
sarily, and it was not very long after it
opened this morning that Policeman
Shroth, who was on duty at the door,
saw a strongly built, well-dressed man
coming up the steps. There was something familiar about his figure; there saw a strongly built, well-dressed man coming up the steps. There was some thing familiar about his figure; there was something in the defant swing of the shoulders that recalled the past. He looked like Divver, but there was a change.

This man was sun-browned, like a farmer or a sailor, and his mustache, which had been wont to stand up at each end with a seif-assertive curl, drooped mournfully, as if its ambition and glory had departed. There was no character in it now; it was humbled, and trailed like a weeping willow. The hair was gray, surprisingly so, and svery one who ever knew Divver, knew his hair was not gray. So the officer was about to turn away when the man walked past him and said:

"Good morning, officer."

Policeman Shroth straightened up like a soldier on dress parade. Mechanically his sight hand rose and fell in a salute, and he responded:

"Good morning, Your Honor."

It was Divver. He had returned. He walked quickly down the aisle to the back room, greeted Sergt, Farley, went into the little room, remained a moment and then came out and took his seat upon the bench.

"We know what we have had in the selved in henorable battle, but the past, but if we give in now we don't sevenir of a bar-room brawl; a re-sense how much worse it will be in the minder of a man with a heavy fist and future. We will never give in," said one strong arm.

It was the trademark of Morris Teporter. He evidently reflected the senti-

the LXX busybodies, and said their in terference in the preparation of legislation would be resented.

This protest by Mr. Platt was not unexpected, and had been thoroughly considered. As was stated in "The Evening World" several days ago, the LXX has concluded to ignore Platt, and submits bills to the Legislature without regard to his approval or disapproval.

In doing so they are counting on the support of Col. Strong, who stated in an interview with an "Evening World" reporter last week that although he would not allew the LXX. to dictate the making of appointments, he thought it entirely proper and was pleased to have the Committee push necessary reform measures through the Legislature. This is just what Platt objects to, and politician are therefore interested in watching whether Col. Strong will stay with the LXX. or listen to Platt's advice. When the incoming Mayor was seen this morning he said he had concluded to say nothing more for publicationed any subject whatever.

It is said that the Association will decide in the meeting whether to announce their stakes or not.

The Jockey Club will also hold a meeting in the Cumberland this evening. James T. Underhill said this morning that the meeting would be the most important in the history of the Club. Every member is expected to be present, as are also the proprietors or representatives of the various race tracks near the city.

what the Secretary of the Treasury will do in the event of the total subscription reaching close to a hundred millions.

Some think that he will make the bond issue \$100,000,000 in place of \$6,000,000 as at present. Others wonder if their bids will be rejected if they do not state specifically that they will not draw gold from the Sub-Treasury with which to pay for the bonds. It is pretty well funderstood that it will be imposable to secure all new gold for the net gain to the Treasury of new gold for the bonds, and the general estimate of the net gain to the Treasury of new gold for the net gain to the Treasury of new gold for the net gain to the Treasury of new gold for the net gain to the Treasury of new gold for the net gain to the Treasury of new gold for the net gain to the Treasury of new gold for the net gain to the Treasury of new gold for the net gain to the Treasury of the bonds are taken on a 2 per cent. basis.

This morning a number of the big downtown banks received applications from out-of-town customers for supplies of gold, and the bankers feet that they are in duty bound to accommodate these customers. They think that the country bankers are drawing gold to buy bonds with.

It is expected that to-morrow or wednesday a meeting of all the bank and trust company Presidents will be held to take over the bond situation and they will take and what price to offer for them.

Some very close figuring is being done, with regard to the interest yield of bonds at a premium, in connection with the Government 5 per gent, loan, for which bids will be received up to next stated to the closured to calculate that the 5 per cent, bonds will not 2 per cent, on Nov. 2 at 118,000.
